FFPE Tissue Samples

PrecisionMed's US-sourced, diseased and TruNormal® FFPE tissue samples. [Most diagnoses are available.](#)

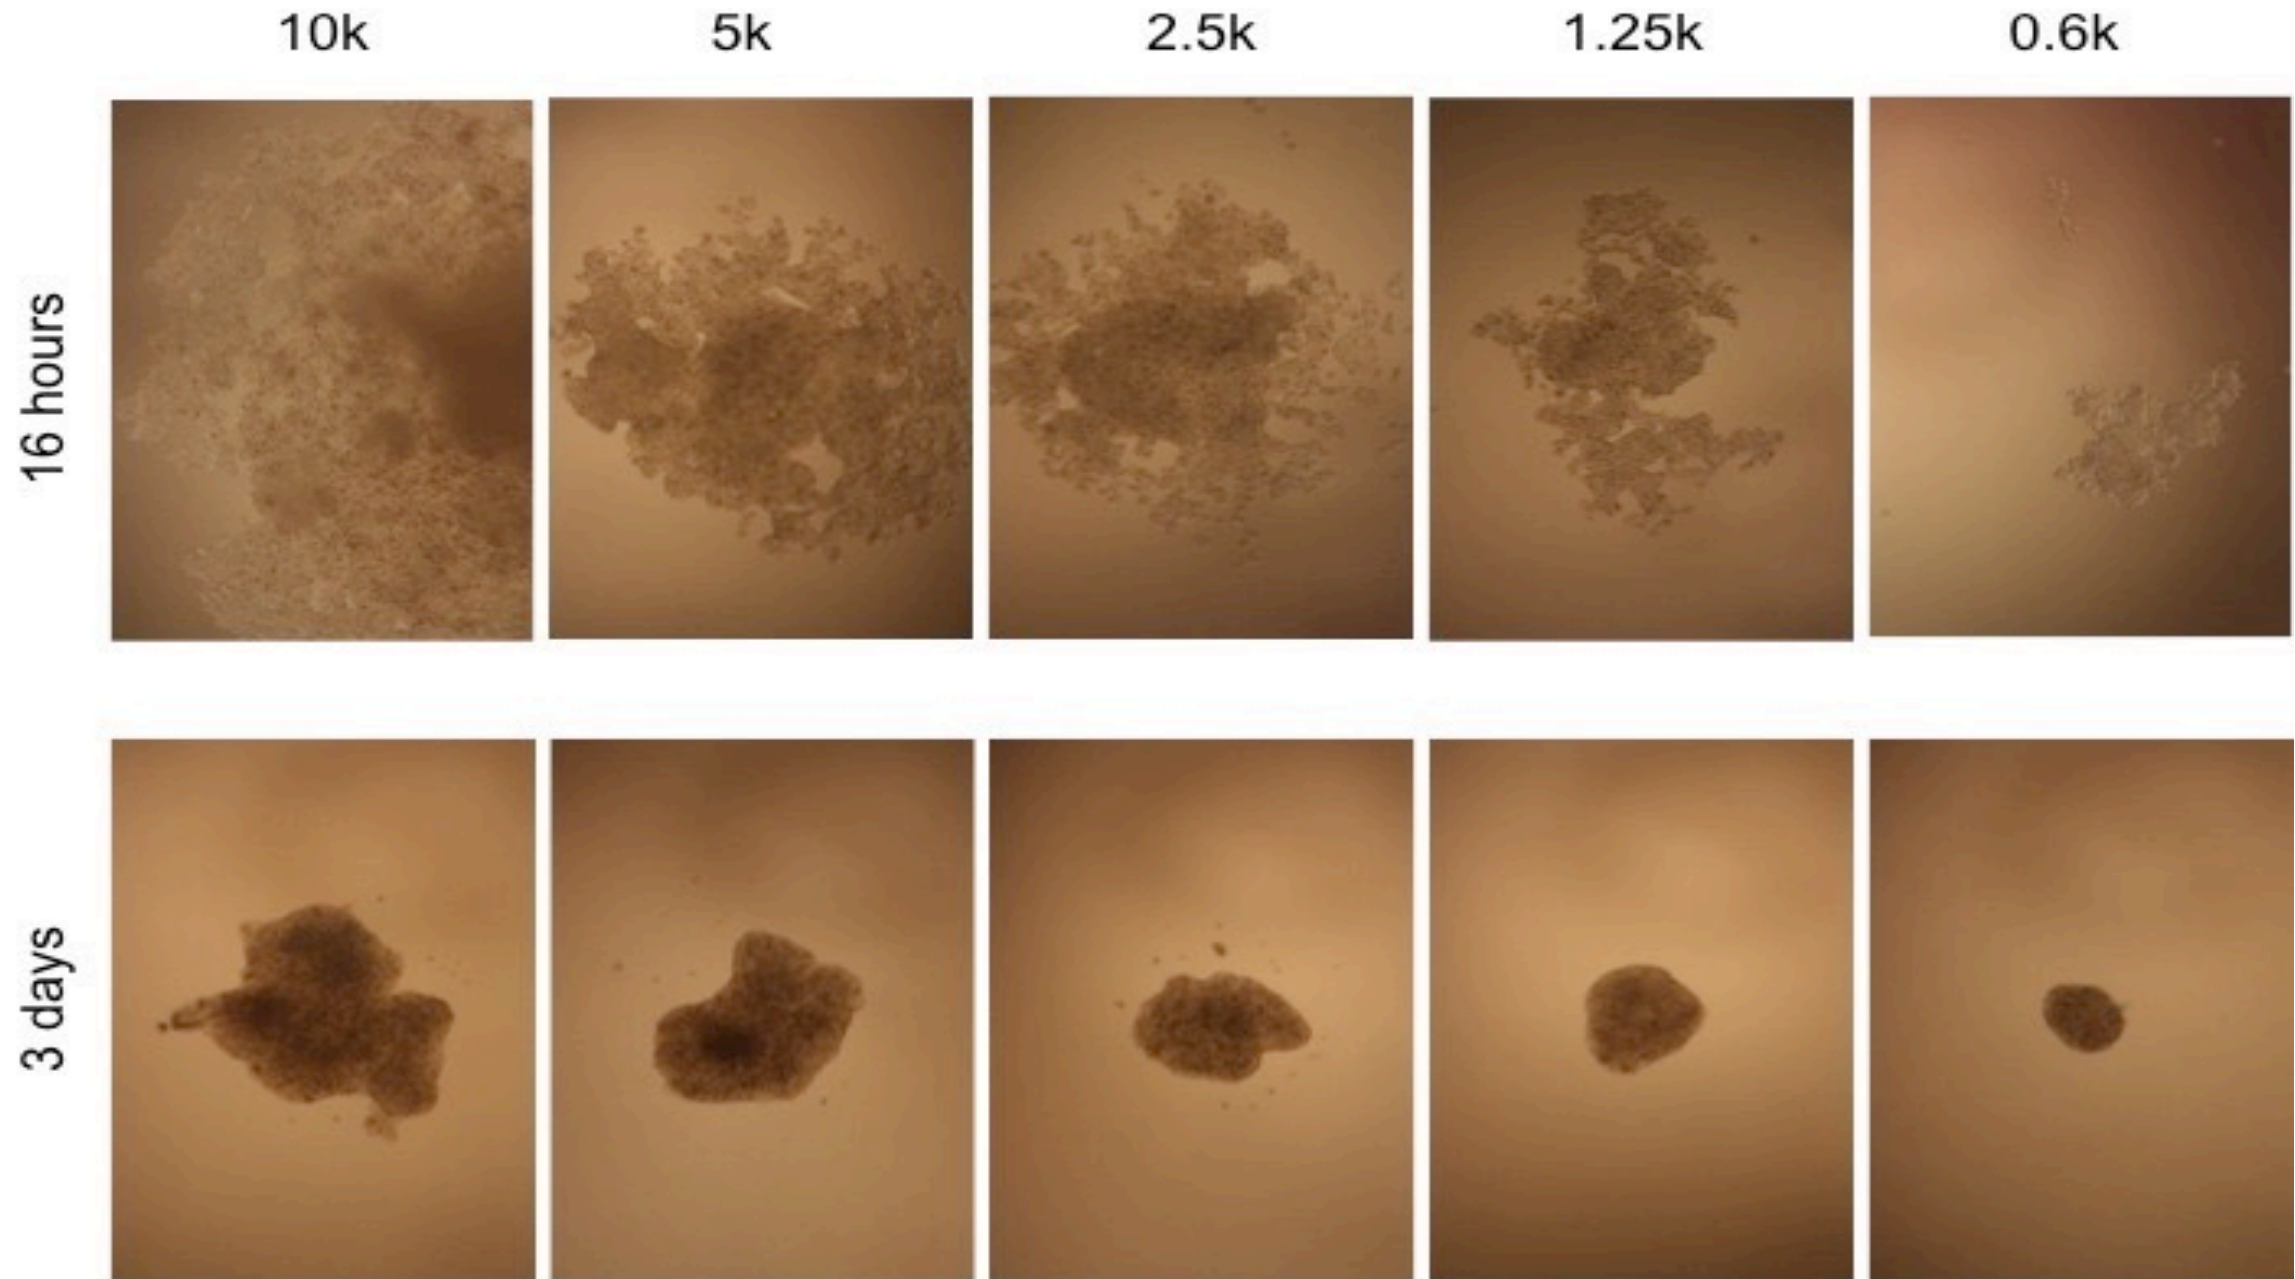

- All tissue samples are well annotated.
- Diseased/tumor and adjacent normal tissues from a single donor are immediately available in formalin fixed paraffin embedded (FFPE) format.
- Snap frozen is available in limited quantities.
- Fresh FFPE tissue samples are collected prospectively from ongoing clinical protocols.
- All material is either consented or supplied under “waiver of consent”.
- All FFPE tissue is supplied by our fully-owned subsidiary, California Tissue Consortium.

Information About Sourcing of Tissue Samples (FFPE Tissue Samples and Frozen Tissue Samples)

Samples and clinical data supplied by PrecisionMed, Inc. are handled in accordance with the highest ethical standards and in strictest compliance with all applicable rules and regulations including the recommendations of the Council of the Human Genome Organization (HUGO) Ethical, Legal, and Social Issues Committee (HUGO-ELSI, 1998); with the United Nations Educational, Scientific, and Cultural Organization's (UNESCO) Universal Declaration on the Human Genome and Human Rights (1997); and with recommendations guiding physicians in biomedical research involving human subjects adopted by the 18th World Medical Assembly, Helsinki, Finland, 1964 and later revisions.

Our customers include nearly every major pharmaceutical and biotechnology company, as well as numerous academic and government research institutions.
