Let missionaries and schoolmasters, the plough and the spade, go together, and agriculture will flourish; the avenues to legitimate commerce will be opened; confidence between man and man will be inspired; whilst civilization will advance as the natural effect, and Christianity operate as the proximate cause of this happy change.

3) Christian politics

A secular state is not one characterized by religious indifference or rational ethics – or political toleration. It is a complex arrangement of legal reasoning, moral practice, and political authority. This arrangement is not the simple outcome of the struggle of secular reason against the despotism of religious authority.
